AMERICAN

CREAM SOAP COMPANY

Incorporated by Act of the Legislature of the State of New York, and Secured by Letters Patent under the

LAWS OF THE U. STATES, A. D. 1851.

CHAS. W. DENNISON & CO

PROPRIETORS FOR THE STATE OF MAINE.

C. W. D. & CO. are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co., in all their varieties, at their Factory,

Nos. 31 & 33 UNION ST., Portland, Me.,

CONSISTING OF

American Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans, Toilet, Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c., &c.

These Soaps are presented to the public after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered and we offer them to the public as every way worthy of their confidence.

They do the work of the Laundry in simply warm water, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Washboard—consequently a large amount of Fuel and wear and tear of clothing is saved and not one fourth the amount of labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the hold of the dirt, without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds sufficient to cover them—then let them remain a few hours (or all night if convenient), then with a slight hand rubbing and good rinsing, they will be perfectly clean, and will not injure the most delicate fabric. Mittens, Sides, Pants, &c., may be washed with perfect safety. Cotton Goods Prints of any color that will fade in water alone when washed with these Soaps, second to the directions, will not change, but remain firm, and the colors rendered more brilliant. For washing Woollens, Prints, Gilding, Mirrors, Maps, Paintings, Lamps, Silver Ware, &c. &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used and besides this, the great wear and tear of clothing consequent upon the old method of hard rubbing up in a board, machine, pounding barrel, &c., &c., and the necessity of boiling, is wholly avoided.

We ask for this Soap a fair trial, choosing to trust to testimonials rather than resort to the publication of a long list of certificates from those who have used it wherever it has been manufactured, which we have in our power to do were it necessary.

For sale Wholesale only, at 31 & 33 Union Street, Portland, and retail by Grocers generally in city and country. Agent supplied on liberal terms. All orders addressed to C. W. D. & Co., postpaid, Nos. 31 & 33 Union Street, Portland, Me., will receive prompt attention.

I regard Mr Eddy as one of the best informed and most able Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure a Patent on as early and favorable consideration at the Patent Office.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable med cine which has received the sanction of the medical faculty by whom it is regularly prescribed and which has been tested successfully by thousands of invalids is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases yet discovered while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing in cases where ulceration has taken place on the lungs, this article has been found by the most careful tests to supply the very ingredients necessary for the formation of cells and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of inestimable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public it has been gradually adopted by the medical faculty is sufficient proof of its unquestioned excellence.

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and a street laid out, 75 feet wide, in the range with Broadway (as it runs from State Street to the Park.) This street is laid out about 160 rods through my lands, extending over the west end of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also, land for Orcharding and Farming on the new Stage Road to Oldtown running by Combs Mills, situate between land and the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the land on which I live, which I have raised over 40 bushels of wheat to the acre (as may be seen on the books of the B. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries.

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, it being one of the easiest roads running out of Bangor.

Liberal terms will be given on it, and the size of the lots made to suit purchasers.

Admirable Invention!

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and saving the labor of men, in the various mechanical implements, but female labor has been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron which will relieve them, in a very great degree, from the excessive and fatiguing labor of ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor and despatch, one cents worth of dry charcoal supposed to be a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Holders and Laundry Irons are constructed upon the same principles and possess equal superiority.

July 13th

The New Treaty with England.

The New York Sun has the following remarks upon this treaty which it is now said will probably be ratified by the Senate:

An interesting constitutional question comes up in connection with the Canadian Fishery and Reciprocity Treaty. The constitution gives the President power to make treaties, by and with the advice and consent of the Senate, but it gives to Congress the power "to regulate commerce with foreign nations". Now the Canadian Reciprocity Treaty proposes to establish free trade in the following articles of commerce, the produce of Canada or the United States:

Grain, flour and breadstuffs of all kinds; animals of all kinds; fresh, smoked and salted meats; cotton, wool, seeds and vegetables; undried fruits; fish of all kinds; products of fish and of all other creatures living in the water; poultry, eggs; horses, furs, skins or tails undressed; stone or marble in its crude or unwrought state; slate; butter, cheese, tallow; lard, horns, manures; ores of metals of all kinds; coal; pitch, tar, turpentine, shingles; timber and lumber of all kinds, round, hewed and sawed, unmanufactured in whole or in part; firewood; plants, shrubs and trees; peltz; fish oil; rice, broom-corn and bark; gypsum; ground or unground; hewed or wrought or unwrought burr or grind-stones; dyestuffs; flax, hemp, and tow unmanufactured; unmanufactured tobacco; rags.

And it is further agreed, that no export duty, or other, shall be levied on lumber or timber of any kind cut on that portion of the American territory in the State of Maine, watered by the river St. John and its tributaries, and floated down that river to the sea when the same is shipped to the United States from the Province of New Brunswick.

If, then, the President, by and with the consent of the Senate, can bind the United States to these terms, why may they not proceed a step farther and make a reciprocity treaty with Great Britain which will admit her coal, iron and manufactures duty free, in consideration of our cotton and breadstuffs being admitted duty free into British ports? If the consent of Congress is not necessary to give binding force to the Canadian treaty, we know of no limit to the treaty making power. Canada is as much a foreign country to us as any other part of the British possessions, and the rule which applies to commerce with Canada will apply equally to all foreign commerce.

There is much force in this view of the matter, and it ought to have weight upon the minds of Senators, when called upon to vote on the question of ratification. In this connection we may remark that the treaty itself, aside from its assumption of the legislative prerogative, has never been satisfactory to us—for we have regarded it as one-sided in its reciprocity, inasmuch as it admits free of duty many provincial products which will seriously compete in our own markets with similar American products, while in return we are allowed but small advantages for trade that we do not now possess. So far as reciprocal trade is concerned we have ever regarded the proposed arrangement as unequal, and one which we could not advocate. For this reason, we were somewhat chagrined that a communication unreservedly advocating the treaty should, some days since, have appeared (in the daily edition) in the shape of an editorial, except that it had a mark of signature. The heading which would have distinguished it as a communication, was omitted without our knowledge. Correspondents are sometimes allowed considerable latitude; but we do not wish it to be understood that we necessarily adopt all their sentiments.

A well written article upon the lumber interests of Maine in this connection, has been sent to our address, and will be published to-morrow.

New Publications.

A Parisian Pastor's Glance at America.—By Rev. J. H. Grand Pierre, D.D. Boston: Gould & Lincoln. 1854.

This handsome volume contains the view taken of America in its moral, religious and ecclesiastical aspect, by Dr. Grand Pierre, a distinguished Protestant divine, who was one of the first to participate in the great religious revival that manifested itself in Switzerland some thirty years ago, and was soon after called to take the principal charge of the institute of Foreign Missions at Paris.

It may be purchased at Mr. Duren's bookstore.

Agatha Brawdort, or Pride by the author of "Pique." New York: Stringer & Townsend, 1854.

This is an English work and constitutes one of the "Library of Standard Novels," issued in uniform edition by the above named publishers. We have not had time to examine it, but observe that the notices of the English Press are highly favorable. The Evangelical Magazine, London, says: "This charming work, which may proudly take its place among the highest-toned and purest fictions of our day, speaks to us in a voice which cannot easily pass away from our memories. It is a picture, true to the life, of the great weakness which marks nearly all of our leading families, and almost shuts them out from the sympathies of humanity. To be the author of such a work is, to our thinking, praise and fame enough for one life."

Substance and Shadows, or Phases of Every Day Life. By Emma Wellmont, author of "House-Keeping and Keeping House," &c. Boston: John P. Jewett & Co., 1854.

This is a well printed volume of 320 pages, containing a large number of tales, sketches, and brief practical articles, in illustration and inculcation of truth and morality, and pointing out many of the follies and fatal errors of an artificial state of society. From a cursory examination, we judge the authoress, already known to the literary world, to be worthy the reputation of a good writer, and one who is striving to benefit the race.

Gan Eden, or Pictures of Cuba. Boston, John P. Jewett & Co., 1854.

Anything new about Cuba will be read with a relish. The present work, however, is principally devoted to the esthetic rather than the physical or political of that interesting island. "Gan-Eden," or a "Garden of Delight" is the title of the book—and it is consequently Cuba the Beautiful of which we are invited to read. The substance of the work first appeared in letters to the National Era, and in an article in the North American Review.

The New Hampshire Legislature adjourned on Saturday, the 15th, after an unusually long session of six weeks. The following are among the acts passed:

To prevent false and fraudulent issues of stock in bank, railroad, and other companies; making cities and towns liable for damages caused by mobs and riots; and to empower married women to make testamentary disposition of their estates.

The Spanish Insurrection is thought may be the commencement of an important revolution in the Peninsula. A correspondent of the London Times in closing an account of the outbreak, says:

To give my opinion as to the issue of the movement would be rash indeed, as in no country do things happen more opposed to all probability and all calculation than in Spain; and precisely because the Court is profligate and the Ministers hated, and the conduct of both merits the worst that could happen to them, the moment may be put down. It it succeed, and a more advanced section of Liberals get the upper hand, the story of the Spanish Bourbons is told for a long time to come; if the Government succeed, we may look out for a coup d'état, and, indeed, for anything else that a frightened and unprincipled government may think proper to do.

Fashionable Dissipation. The New York Atlas states that a lady friend is making some calls upon the fashionable millinery establishments in Broadway, after making her purchases at one of them, was politely invited into a back room where she was asked to a glass of wine. She inferred from this, the department source, devoted exclusively to the purpose of treating their customers. Tippling is getting to be a fashionable vice among the ladies, and there are already several splendid saloons in Broadway, which they visit exclusively for the purpose, unattended by their lords.

Mr. Palmer, the recent purchaser of the remains of what was once the Great Republic, has commenced rebuilding her. She will now have but three decks, and three masts, and will be able to carry about 2500 tons. The cost of building will be about $125,000, and she is designed for the China trade, and will retain her present name. Her length and model will remain unchanged.

Decline in Pork. The Louisville Courier says the pork market of that city is exceedingly dull, and that 800 bbls. of mess were offered on the 13th instant, at $10 per bbl., on four months credit, and shipment of 2100 bbls. to New York. The Courier is of opinion that the price of pork will be much over this season than it was last.

Congress.

Washington, July 18th.

Senate. Mr. Sumner presented a memorial of the Penn. Society for the Abolition of Slavery, urging the repeal of the fugitive slave law, asserting that under the 10th section of that law, a free colored person had already been sent back to slavery.

The memorial referred to the case of a colored man in Philadelphia, who had escaped from slavery in Georgia, under the guards of a steam boat, and who was re-arrested at Wilmington, Delaware; yet notwithstanding the positive evidence that he was a free man, he was, under the working of the fugitive slave law, resigned to slavery. The Senator from Massachusetts, in presenting the memorial, added a few brief comments.

Mr. Clay of Alabama said, the dog will return to his vomit, but he for one, was tired of hearing these hackneyed phrases which were almost continually repeated, in violation of the order of the Senate.

Mr. Sumner replied: "I am in the habit of answering argument on this floor when it is presented by my peers, but when a Senator does not keep within rules of propriety and order in debate, that man is not my peer."

Mr. Bayard of Del. denounced the author of the letter giving an account of the arrest at Wilmington, and stated that the assertions relative to the case were unworthy of belief, and they were no doubt the ravings of some maniac.

Mr. Benjamin of La. asked whether Mr. Sumner recognized any obligation under the constitution he had sworn to support, to deliver fugitive slaves?

Mr. Sumner asked the Senator of Louisiana whether in his own State or in South Carolina there existed laws which returned to a colored man, a citizen of Mass., his freedom when in those States, and selling him into slavery to pay his jail fees.

Mr. Benjamin admitted that there were such laws in force, but he regarded them as unconstitutional.

Mr. Sumner asked if the Senator from Louisiana was willing to introduce a bill in Congress carrying out the provisions of the constitution guaranteeing to the citizens of one State the rights of citizenship in all.

Mr. Benjamin replied that he thought the question an extraordinary one. He said that the Senator improved upon the Yankee rule, in answering one question by asking two.

Mr. Sumner said the Senator from Louisiana must explain his position on these points before he could confront the discussion.

Mr. Benjamin respectfully declined to further discussion.

Messrs. Shields, Toombs, Gwin and others, refused to permit Senator Sumner to rejoin.

A vote was had upon the memorial, when it was laid upon the table by yeas 37, nays 14.

Mr. Badger withdrew his motion to reconsider the vote passing the Pacific Telegraph bill, and the bill is now passed.

House. Mr. Phillips asked leave to introduce a bill providing that all terr tory acquired from Mexico under the Gadsden treaty be incorporated with New Mexico, and subject to all the laws of that territory. He urged the passage of the bill.

Mr. Peaslee objected.

The House took up the bill to repeal so much of the act of August 30, 1852, as makes a reduction of 50 per cent on prepaid postage on newspapers and periodicals.

Mr. Olds proposed to put the bill on its passage.

Mr. Washburn of Maine opposed the bill.

Gerrit Smith repeated his views against government having anything to do with postal matters.

Mr. Elliot of Massachusetts could see no reason for the passage of the bill.

Before disposing of the subject the morning hour expired.

The House went into committee on the Army Appropriation bill.

The amendment pending was to restore the civil superintendency at the National Armories, and, after some debate it was agreed to—ayes 88, nays 38. Without disposing of the bill the committee rose, and the House adjourned.

Wednesday, July 19th.

In the Senate a motion to lay the Homestead Bill upon the table, was negatived, 24 to 27, as follows:

Yeas—Messrs. Badger, Bayard, Benjamin, Brodhead, Butler, Clay, Clayton, Dawson, Dixon, Evans, Fitzpatrick, Foot, Fitch, Fitzpatrick, Houston, Hunter, Mallory, Mason, Mojre, Pearce, Pratt, Sebastian, Toombs, Toucey.

Know your Husband's Income. We hear it frequently asserted that extravagance is the great evil of the age. Husbands particularly, are fond of expatiating on this subject before their wives, or before temporary visitors whom they talk to, in order to talk to their spouses. But, in justice to the ladies, it should be known that men are quite as extravagant as women. If the latter have a weakness for laces, silks and fine furniture, the former are just as fond of cigars, champaigne and horses. Many a husband who grumbles at his bills, thinks the extravagant sums paid by his wife for gloves, shoes and handkerchiefs, spends twice as much on oysters, or at ten pins! Things the wife fancies are moreover the more refined of the two, and on the whole, are perhaps quite as tasteful as the others. Fair play has not been given to the sex. The man, who do most of the editing, writing and paying, have raised the cry of extravagance against the ladies, until a popular idea has arisen, that females are constitutionally greater spendthrifts than the males. It is the old story of the lion painting his own virtues.

Having thus exonerated the ladies from a charge we think unjust, they will, we trust, listen dispassionately to what further we have to say. For though we consider the man quite as extravagant as the women, we are far from exonerating either from this folly entirely. At some other time we may have a word of advice for the "lords of creation," but to-day we wish to have the ear for awhile of the wives of these same "lords." We presume at the outset we are talking to sensible women. By sensible woman, in this instance, we mean one who, if a wife, makes her husband's interests her own, and who is, therefore, anxious to spare his unnecessary anxiety, and to labor with him, to the extent of her ability, to lay by something for their old age, if not for the future establishment of their children. The wife who has not this sympathy for her husband, but who regards him merely as a means of enabling her to dress expensively, is unworthy the name, the position, the honors of a companion for life. She is, in one sense, the help-mate, which she was called in the old Saxon. She is a drag on her husband, not an assistant to him. To aid him she should be cheerful, she should order her house well, and above all, should strictly avoid extravagance; and to achieve the latter there is no other way, provided she is a woman of sense, than to know his income exactly.

For extravagance is a relative term. A bro cade silk may be a folly for one wife, but only what is proper for another. We do not advocate parsimony on the part of the rich. If elegant fabrics and sumptuous furniture and fine houses were abolished, many thriving trades would perish for want of sustenance; and those who ply them would either be reduced to permanent beggary or forced into other pursuits which are already, perhaps, sufficiently stocked. But it a sensible wife knows her husband's income, she can tell for herself what is extravagant, and what is not. Is he a merchant? She is aware, then, that he has a fortune to make; that his pursuit is a precarious one; and that consequently the household expenses must bear a very small proportion to the apparent profits. Is he a professional man? She knows that, in this case, the road to wealth is slow, and that, therefore, she must deny herself many things that his position would seem to warrant. Is he a mechanic? In such an event, her husband can never hope to be rich until he saves capital enough to become master workman, and he cannot hope to succeed in this effort, unless sustained by the strictest economy on the part of his wife. Is he a man of fortune? A wise wife is aware that property fluctuates, and that children all want a start in life; and consequently even the wife of a landed proprietor will take care not to spend their whole income.

It is not always the wife who is to blame, however, for not regulating the expenses of the husband's income. Many men foolishly think that it is not a wife's business to know the state of their affairs. Others, when in difficulty, deceive their wives. It frequently happens that the wife believes her husband to be prospering when he is not, or greatly overrates the extent of his prosperity. In such cases, the husband is quite as censurable for the wife's extravagance as she is herself. To sum up all in a sentence, if husbands would be more just to wives, wives would seldom act like women of sense, and would be less extravagant.

A Michigan Red Bug Story. The editor of the Grand River Eagle has a friend who has been stopping, as he alleges, at one of the hotels in Kalamazoo. His story is pretty fairly told, and he possesses talents in the way of "spinin yarn" that should be credit to one who has entertained his mess in the forecastle, of a whaler, or relieved the tedium of a watch on deck. "You see I went to bed pretty all fired tired up, after a hull day on the old road before the plank was laid, calkulatin' on a good snooze. Wal, just as the shivers began to ease off, I kinder felt sumthin' tryin' to pull off my shirt and diggin their feet into the small of my back to get a good hold. Wiggled and twisted, doubled and puckered—all to no use—and kept goin at like all hin. Bimeby got up and struck a light to look around a spell—found about a peck of bed bugs scattered around, and more droppin' off my shirt and runnin' down my legs every minit. Swept a place on the floor, shook out a quilt, lay down and kivered it up for a nap. No use—mounted right on to me like a parcel of rats on a meal tub—dug a hole in the kiver lid, and crawled through and gave me fits for trying to hide. Got up again, went down stairs and got the slush bucket from the wagon, brought it up and made a circle of tar on the floor—lay down on the floor on the inside, and felt comfortable that time any how. Lets the light burnin' and watched 'em. See them get together and have a camp meetin' about it; and they went off in a squad with an old grey headed one at the top right up on the wall on the ceiling, till they got on the right spot, then dropped right plump into my face. Fact, by thunder. Well, I swept 'em up agin and made a circle on the ceiling too. Thought I had 'em foul that time; but I swan to man, if they didn't pull straws, out of the bed and build a bridge over it." Saying an incredible expression on our visage, he finished his story thus: "It's so, whether you believe it or not, and some on 'em *walked across* on *stilts*. Bed bugs are enough critters and no mistake; specially Kalamazoo kind."

A story is told of an old Dutchman, for many years keeper of the ferry at Q. Creek, who was one day crossing with a large load of passengers, who with one exception addressed each other as colonel, major, captain, judge, &c.—When the fare came to be paid, he charged the *titled* men a shilling each. "What is my fare," said the gentleman who had no title, after the rest had paid. "Your fare!" said the Dutchman, "your fare is chust nothing—you ish de first high private Yankee ever carried over the creek, and you is welcome."

Every article used in building our ships has to be shipped to this place. Hardly a stick of timber, a plank, or even a treenail is produced here. Since the river opened in the spring, there has seldom been a day when there has not been one or more lumber-laden vessels discharging at our wharves. The freight money on this material for one of the large ships built here last season, amounted to over seven thousand dollars.—Newcastle Democrat.

FARMS FOR SALE.

The remainder of my farm in Hampden, near Roberts' steam mill, containing about 84 acres of land under high cultivation, having a large barn, nearly new; a young nursery of about 1000 fruit trees, under a good birthen of grass; will cut 15 to 18 tons of hay, and there are about 2 acres under cultivation. Now is the time to examine it. Also, a lot of about 7 acres, well covered with wood, lying half a mile back.

Also, a farm, 11 miles from the city, in Clifton, of about 150 acres of excellent land, adjoining Leonard's Pond, a part of which is excellent meadow, and it is estimated that it will cut 40 tons of hay this year—and there are 7 acres laid down with oats and wheat. Anti-Nebraska State Convention.

WORCESTER, July 20th.

The Anti-Nebraska Convention organized to-day by the choice of Judge Morris of Springfield for President, and 13 Vice Presidents, representing the three prominent political parties.

Speeches were made by Judge Morris, Gen. Henry Wilson, Hon. R. L. Keyes, Hon. Amasa Walker, Rev. Edward Beecher and others.

A provisional committee of two Whigs, two Democrats and two Free-soilers, was appointed to call a State Convention, of delegates, at which nominations will be made for the coming State election.

The following resolutions were unanimously adopted:

Resolved, That the unquestionable existence of a settled purpose on the part of the slave power, to convert the Republic which our fathers founded on principles of justice and liberty, into a slaveholding despotism, whose vital and animating spirit shall be the preservation, propagation, and perpetuation of slavery, calls for the immediate union of all men into a party which shall make a question of freedom paramount to all other political questions.

Resolved, That in co-operation with friends of freedom from other States, we hereby form ourselves into the Republican party of Massachusetts, pledged to the accomplishment of the following purposes: to bring the administration of the general Government back to its original principles—to bring about the repeal of the fugitive slave law—to restore the prohibition of slavery in Kansas and Nebraska—to prohibit slavery in all the territories—to resist the acquisition of any more territory unless slavery therein shall be prohibited—to refuse admission to the Union of any more slave States—to abolish slavery in the District of Columbia—and to protect the constitutional rights of all citizens going to other States.

Resolved, That Massachusetts has the constitutional right, and it is her duty, to enact laws which shall protect the personal freedom of all her citizens.

Resolved, That we recommend the assembling, at some central and convenient place, of a National Convention, with a view to the adoption of efficient measures to resist the encroachments of the slave power.

The afternoon proceedings of the Convention took place on the Common—the hall not being large enough.

From Washington.

WASHINGTON, July 20.

SENATE. The Homestead bill being under consideration, Mr. Bayard spoke, showing how impossible it was to properly consider the bill during this session, and how much other business would be delayed by its further consideration. He moved to postpone the bill till the second Monday of December, and that it be the special order for that day.

A long debate then ensued on postponing.

Mr. Hamlin, though opposed to the bill was also opposed to postponing. He wanted to get rid of it to day.

Mr. Douglas urged the friends of the bill to stand firm, and set out the night.

The question was taken and the Senate refused to postpone, yeas 24, nays 30.

HOUSE. The Army Appropriation bill being up, the House, by 117 to 37, concurred in the amendment to restore the civil law of the military superintendency of the National Armories. The bill passed 93 to 62.

The Speaker read a message from the President, accompanied by correspondence of Mr. Marshall, late Commissioner to China, with the State Department. There are some 1400 pages of it, but it contains nothing of special public interest. Referred to committee on Foreign Affairs.

Death—The Weather.

ALBANY, July 20th.

Robert Emmett Temple, Adjutant General of this State, died here this afternoon. He graduated at West Point and was an esteemed citizen and soldier. The weather has been extremely hot here to-day, the mercury ranging as high as 100.

BY LAST NIGHT'S MAILS.

The Newcastle Democrat states that Captain Matthew Madigan, of Newcastle, was stabbed by a drunken sailor on board his ship, at Callao, recently, and died of his wounds within three days.

STEAMER GOVERNOR. The Portland Advertiser states that the Governor has been sold to Col. John Goddard, of that city, who intends to put her upon the Boston, Portland, Eastport and St. Johns route immediately.

Our farmers are now busily engaged in securing their hay crop, and we are informed that, on an average, it is better than it has been the past two years. Vegetation is looking exceedingly well, and should we escape a drought we can count with certainty on a profitable harvest.—Skowhegan Clarion.

FIRE. On Monday, the 17th inst., the store occupied by John Holmes, at Salisbury Cove, in Eden, with its entire contents, was totally consumed by fire. We understood there was an insurance of $1000 upon the property, and that the loss is estimated at $1500.

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value all within twenty miles of Boston

Two bottles are warranted to cure the worst kind of a humor.

One to three bottles will *cure the worst* kind of pimples on the face

Two to three bottles will cure the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches on the hair

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Five to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have seen mild all the wonderful medicines of the day as that a common weed, growing upon the pastures and along old stone walls, should cure every humor in the system yet it is now a fixed fact—If you have a humor it has to start There are no ifs nor ands about it, and no cases but what yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has drawn along some of the greatest cures ever done in Massachusetts He gave it to children a year old, to feeble people of every, and has seen puny feeble children whose flesh was soft and flabby, restored to perfect state of health by one bottle

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief after a fit of sickness Some who have taken it have reason to be costive for years and have been regulated by it Where the body is sound it works quite easy but where there is any derangement of the functions of nature, it will cause very singular feelings but you pay not be alarmed—they always disappear in from four days to a week. There is never a bad case of humor—in the entirety which that fail, is going to do will feel like a new person If there is some of the most extravagant encomiums of that character has lavished to it

No charge of what ever expense But the best you can get, and enough of it.

ROXBURY, Sept 19 1853.

DR. ORDWAY'S HYDROP DISCOVERY!

DR ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends and those who have tried it, and know its efficacy to put it within the reach of all He now offers it as an Herb discovered in California by an *Native Doctor* which makes it the most wonderful remedy for

Humors of All Kinds,

Liver Complaints and Chronic Diseases

The virtues of this Herb were first made known to Dr Kelley by an Indian, while suffering a great sick with that terrible disease the Chronic Diarrhœa, and Liver Complaint. The effect was miraculous curing the man in a few days

He in turn when bitten by a rattle-snake, or poisonous reptile, resorted to this Herb for a cure

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them

If you have Erysipelas, three to five bottles will cure it

If you have Scrofula, three to seven bottles will cure it

If you have sore eyes, two bottles will cure them

One to two bottles will cure Pimples on the face

Pain in the side, two bottles will cure Scaly Eruptions and Blotches

One to two bottles will cure Ringworm

One to two bottles will cure Nursing Sore Mouth

One to three bottles will Cleanse the System of Biles

Two to five bottles will cure Rheumatism.

Three or four bottles will cure all running Sores and Ulcers

One or two bottles will cure Barber's Itch.

One to three bottles will cure Canker in the Mouth and Bowels

For Liver Complaints and Jaundice, Its effects are more and wonderful removing obstructions from the Liver, opening the pores of the skin, carrying off the yellow matter, relieving the side and all those feelings of the stomach and restoring high spirits and renewed energy which is the result of this disagreeable and often fatal disease

FOR DYSPEPSIA,

A fair trial will convince you there is nothing like it

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered One widow lady in Lawrence has been troubled with cancer for years—by taking two bottles she is now quite well

FOR COSTIVENESS,

One gentleman says that it was the only medicine which relieved him

FOR KIDNEY DIFFICULTIES,

It is poison to take Calomel with this Medicine in the house it will not stand long

Mr Willis of Lynn, says it has cured him of Rheumatism, and he is now free from pain

For Chills and Fever, Mercurial Diseases, Taints in the system or strong impurities, commencing where the system is much deranged it will cause disagreeable feelings at first but continue to use the medicine and it will be found invaluable, and we do not hesitate to say that the cure is sure, and proportions are such that the cure is satisfactory and lasting.
